## Transmission Change Management

*Title:* **Streamlining Stage 1 PDUPs and PDUP-IM Update**

*Change or Update:* Change

*Effective Date:* April 1, 2016

### Change Description

Streamlining Stage 1 PDUPs to bus-branch single line diagrams and PSS.E Input Data file.

Models will be provided for all studied alternatives.

Facility code and bus numbers will be assigned in Stage 2.

PDUP-IM update to reflect these changes and the updated forms from TMDR R2 dated Feb 2014.

### Background

To improve PDUP process efficiency and model completeness, the AESO has reviewed the Stage 1 PDUP process.

Transmission Modelling Data Requirement R2 was published on Feb 5, 2014, the PDUP-IM R3 is updated to reflect these changes.

### Change Scope

Updates to PDUP-IM R3 and Connection Webtool reflecting the changes in the Stage 1 PDUP content and the facility code & bus numbers assignments.

Updates to Section 7 of PDUP-IM R3 to reflect the updated PDUP forms.

### Implementation Schedule

The revised Stage 1 PDUP process will be effective April 1, 2016.

The PDUP-IM R3 will be posted April 1, 2016 along with updated PDUP forms.

The forms associated with PDUP-IM R2 will remain on the AESO website until June 2016.

### Additional Information

For more details on the change, and to access the updated templates please visit our [website](#).
