Re: Rescission of Approval by the Independent System Operator, operating as the Alberta Electric System Operator (the “AESO”) under Section 501.3 of the ISO Rules, *Abbreviated Needs Approval Process*, (the “ANAP Rule”) for Vauxhall Solar Farm Connection – Project No. 1926 (the “Project”)

On March 23, 2017, Solar Krafte Utilities Inc. (“Market Participant”), submitted a system access service request (“SASR”) to the AESO to connect its Vauxhall Solar Farm Connection in the Vauxhall Area (AESO Planning Area 52, Vauxhall).

On August 18, 2023, the AESO approved the transmission facility project required to respond to the SASR (Project) pursuant to the ANAP Rule.

On November 21, 2025, the AESO received a request from the Market Participant to cancel the Project and related SASR. Subsequently, on December 11, 2025, the AESO cancelled the Project and removed the Project from the AESO’s Project List.

Therefore, the AESO is rescinding its approval of the Project pursuant to the ANAP rule. This rescission is effective upon the signature date provided below.

Should you have any questions, please contact Laura Watson at Laura.Watson@aeso.ca

Sincerely,

DocuSigned by:
