

# Cancellation of the Vauxhall Solar Farm Connection in the Vauxhall Area

*The Solar Krafte Utilities Inc. (Solar Krafte) request for transmission system access to connect its approved Vauxhall Solar Farm (Facility) in the Vauxhall area has been cancelled.*

## BACKGROUND

The AESO originally approved the transmission facility project required to respond to Solar Krafte's request for system access service under section 501.3 of the ISO rules, *Abbreviated Needs Approval Process*. The ANAP approval included the following transmission developments:

- Add one 138 kilovolt (kV) transmission line to connect the Facility to the existing 138 kV transmission line 763L in a T-tap configuration.
- Add or modify associated equipment as required for the above transmission developments.

## NEXT STEPS

The above developments are no longer needed; therefore, the AESO has rescinded its ANAP approval for the Project.

Information related to the Need for the Vauxhall Solar Farm Connection in the Vauxhall Area project is available on the AESO's website at <https://www.aeso.ca/grid/transmission-projects/>

## WHO IS THE AESO?

The Alberta Electric System Operator (AESO) plans and operates Alberta's electricity grid and wholesale electricity market safely, reliably and in the public interest of all Albertans. We are a not-for-profit organization with no financial interest or investment of any kind in the power industry.

We appreciate your views, both on the need for transmission system development and proposed transmission plans. If you have any questions or comments, please contact us directly.
