

# Cancellation for the Coleman 799S Substation Upgrade in the Municipality of Crowsnest Pass area

*The FortisAlberta Inc. request for transmission system access to reliably serve new demand for electricity in the Municipality of Crowsnest Pass area has been cancelled.*

## BACKGROUND

In August 2020, AltaLink began distributing an information package that included the AESO's Need Overview, Coleman 799S Substation Upgrade. The AESO Need Overview included the following transmission developments:

- Upgrade the existing Coleman 799S substation, including replacing one existing 138/25 kilovolt (kV) transformer with a 138/25 kV transformer of higher capacity and adding one 138 kV circuit breaker.
- Add or modify associated equipment as required for the above transmission developments.

## NEXT STEPS

The above developments are no longer needed and the AESO will not consider this project under section 501.3 of the ISO rules, *Abbreviated Needs Approval Process*.

Information related to the Coleman 799S Substation Upgrade project is available on the AESO's website at <https://www.aeso.ca/grid/transmission-projects/>

## WHO IS THE AESO?

The Alberta Electric System Operator (AESO) plans and operates Alberta's electricity grid and wholesale electricity market safely, reliably and in the public interest of all Albertans. We are a not-for-profit organization with no financial interest or investment of any kind in the power industry.

We appreciate your views, both on the need for transmission system development and proposed transmission plans. If you have any questions or comments, please contact us directly.
