

Cancellation of the Sol Aurora Project Connection in the Sturgeon County area

The Sol Aurora Ltd. (Sol Aurora) request for transmission system access to connect its Sol Aurora Solar Farm (Facility) in the Sturgeon County area has been cancelled.

BACKGROUND

In July 2022, AltaLink Management Ltd. began distributing an information package that included the AESO's Need Overview, Sol Aurora Project Connection. The AESO Need Overview included the following transmission developments:

- Add one 240 kilovolt (kV) transmission line to connect the Facility to the existing Heartland 12S substation in a radial configuration.
- Modify the Heartland 12S substation, including adding one 240 kV circuit breaker.
- Add or modify associated equipment as required for the above transmission developments.

NEXT STEPS

The above developments are no longer needed and the AESO will not submit an application to the Alberta Utilities Commission.

Information related to the Sol Aurora Project Connection is available on the AESO's website at <https://www.aeso.ca/grid/transmission-projects/>

WHO IS THE AESO?

The Alberta Electric System Operator (AESO) plans and operates Alberta's electricity grid and wholesale electricity market safely, reliably and in the public interest of all Albertans. We are a not-for-profit organization with no financial interest or investment of any kind in the power industry.

We appreciate your views, both on the need for transmission system development and proposed transmission plans. If you have any questions or comments, please contact us directly.
