

# ISO Rules

## Part 200

### Division 205 Ancillary Services Market

#### Section 205.10 Dispatches for Concurrent Services

#### Applicability

- 1 Section 205.10 applies to:
- (a) a **pool participant**; and
  - (b) the **ISO**.

#### Requirements

- 2(1) If a **pool asset**:
- (a) is under a **dispatch** for any of the following:
    - (i) **transmission must-run**
    - (ii) **operating reserve**
    - (iii) **fast frequency response service** or
    - (iv) **dispatch down service**
  - (b) while already under a **dispatch** or **directive** for one or more of the other services listed in subsection 2(1)(a), and
  - (c) the **pool participant** is unable to provide the entirety of all the services that are subject to **dispatch** or **directive**,

the **pool participant** must provide the services in the order listed in subsection 2(1)(a) and restate (or in the case of **fast frequency response service**, change the offered volume) any service that cannot be provided under the requirements applicable to that service.
