

DATE EFFECTIVE	ISO RULES CHANGE
October 25, 2019	<p><b>Part 500 Facilities</b> Section Added: <i>Section 502.7, Load Facility Technical Requirements</i></p>
September 17, 2019	<p><b>Part 500 Facilities</b> Section Amended: <i>Section 501.10, Transmission Loss Factors</i></p>
September 3, 2018	<p><b>Part 100 General</b> Section Amended: <i>Section 103.6, ISO Fees and Charges</i></p>
September 1, 2018	<p><b>Part 200 Markets</b> Section Amended: <i>Section 202.6, Adequacy of Supply</i></p> <p><b>Part 300 System Reliability and Operations</b> Section Amended: <i>Section 304.3, Wind and Solar Power Ramp Up Management</i> Section Added: <i>Section 304.9, Wind and Solar Aggregated Generating Facility Forecasting</i></p> <p><b>Part 500 Facilities</b> Sections Amended: <i>Section 502.1, Aggregated Generating Facilities Technical Requirements</i> <i>Section 502.3, Interconnected Electric System Protection Requirements</i> <i>Section 502.8, SCADA Technical and Operating Requirements</i> Section Added: <i>Section 502.16, Aggregated Generating Facilities Operating Requirements</i></p> <p><b>Consolidated Authoritative Document Glossary</b> Definitions Amended: aggregated generating facility allowable dispatch variance collector bus commissioning governor or governor system maximum authorized real power</p>
August 31, 2018	<p><b>Part 500 Facilities</b> Section Amended <i>Section 501.3, Abbreviated Needs Approval Process</i></p>

July 1, 2018	<p><b>Part 300 System Reliability and Operations</b> Section Removed: Section 305.3, <i>Blackstart Restoration</i></p>
May 28, 2018	<p><b>Part 300 System Reliability and Operations</b> Section Amended: Section 306.7 <i>Mothball Outage Reporting</i></p>
April 30, 2018	<p><b>Part 300 System Reliability and Operations</b> Section Added: Section 304.8, <i>Event Analysis</i></p> <p><b>Part Three – Operating Policies and Procedures</b> OPP Removed: OPP 1304, <i>System Event Monitoring and Disturbance Reporting</i></p>
March 28, 2018	<p><b>Part 200 Markets</b> Section Added: Section 201.9, <i>Requirements for a Generating Unit Subject to a Power Purchase Arrangement</i></p>
February 1, 2018	<p><b>Part 200 Markets</b> Sections Amended: Section 205.3, <i>Restatements for Operating Reserve</i> Section 205.4, <i>Regulating Reserve Technical Requirements and Performance Standards</i> Section 205.5, <i>Spinning Reserve Technical Requirements and Performance Standards</i> Section 205.6, <i>Supplemental Reserve Technical Requirements and Performance Standards</i></p> <p><b>Consolidated Authoritative Document Glossary</b> Definitions Added: spinning reserve resource supplemental reserve resource regulating reserve resource</p>
December 7, 2017	<p><b>Part 500 Facilities</b> Section Amended: Section 501.10, <i>Transmission Loss Factors</i></p>
December 4, 2017	<p><b>Part 200 Markets</b> Section Added: Section 201.8, <i>Requirements for the Balancing Pool</i></p>
November 21, 2017	<p><b>Part 500 Facilities</b> Sections Added: Section 502.5, <i>Generating Unit Technical Requirements</i> Section 502.6, <i>Generating Unit Operating Requirements</i></p>
January 9, 2017	<p><b>Part 300 System Reliability and Operations</b> Section Removed: Section 306.6, <i>Automatic Voltage Regulator and Power System Stabilizer Outage Reporting</i></p>
January 1, 2017	<p><b>Part 500 Facilities</b> Section Amended:</p>

	Section 501.10, <i>Transmission Loss Factors</i>
November 29, 2016	<p><b>Part 100 General</b>  Sections Amended:  Section 103.1, <i>Confidentiality</i>  Section 103.2, <i>Dispute Resolution</i>  Section 103.3, <i>Financial Security Requirements</i>  Section 103.7, <i>Financial Default and Remedies</i></p> <p><b>Section 9 Transmission</b>  Section Amended:  Section 9.1.1, <i>Eligible TFO</i></p> <p><b>Consolidated Authoritative Document Glossary</b>  Definitions Amended:  Designated TFO</p>
August 30, 2016	<p><b>Part 300 System Reliability and Operations</b>  Section Added:  Section 304.7, <i>Event Reporting</i></p> <p><b>Part Three – Operating Policies and Procedures</b>  OPP Amended:  OPP 1304, <i>System Event Monitoring and Disturbance Reporting</i></p> <p><b>Consolidated Authoritative Document Glossary</b>  Definitions Added:  control centre  bulk electric system  misoperation  system element</p>
August 15, 2016	<p><b>Part 300 System Reliability and Operations</b>  Section Added:  Section 304.5, <i>Provision for Operation of a Transmission Facility within Ratings</i></p> <p><b>Consolidated Authoritative Document Glossary</b>  Definitions Added:  emergency rating  normal rating  equipment rating  facility rating</p>
July 26, 2016	<p><b>Part 300 System Reliability and Operations</b>  Section Added:  Section 304.6, <i>Unplanned Transmission Facility Limit Changes</i></p> <p><b>Part 500 Facilities</b>  Section Added:  Section 502.15, <i>Reporting Facility Modelling Data</i></p> <p><b>Part Three – Operating Policies and Procedures</b>  OPP's Removed:</p>

	<p>OPP 003.4, <i>Power System Data Sharing</i>          OPP 003.5, <i>Equipment Ratings</i>          OPP 1306, <i>Reporting Equipment Changes</i></p>
<p>June 7, 2016</p>	<p><b>Part 300 System Reliability and Operations</b>          Section Added:              Section 306.7, <i>Mothball Outage Reporting</i></p> <p>Section Amended:              Section 202.4, <i>Managing Long Lead Time Assets</i></p> <p><b>Consolidated Authoritative Document Glossary</b>          Definition Added:              mothball outage</p> <p>Definition Amended:              planned outage</p>
<p>April 29, 2016</p>	<p><b>Part 500 Facilities</b>          Section Added:              Section 504.5, <i>Service Proposals and Cost Estimating</i></p> <p>Sections Removed:              Section 9.1.2, <i>TFO Obligation to Provide Estimates and Proposals</i>              Section 9.1.3.6, <i>Final Cost Report</i></p> <p><b>Consolidated Authoritative Document Glossary</b>          Definitions Added:              cost estimate              original budget              accuracy range              post permit and license estimate              final cost estimate              final energization</p> <p>Definitions Amended:              service proposal              service proposal estimate              final cost report              needs identification document estimate</p>
<p>April 25, 2016</p>	<p><b>Part 500 Facilities</b>          Section Added:              Section 502.13, <i>Battery Energy Storage Facility Technical Requirements</i>              Section 502.14, <i>Battery Energy Storage Facility Operating Requirements</i></p> <p><b>Consolidated Authoritative Document Glossary</b>          Definitions Added:              energy storage facility              maximum authorized charging power              maximum authorized discharging power              normal clearing</p> <p>Definitions Amended:              voltage regulating system</p>

	gross real power
January 29, 2016	<p><b>Part 500 Facilities</b> Section Added: Section 505.2, <i>Performance Criteria for Refund of Generating Unit Owner's Contribution</i></p> <p>Section Removed: Section 9.5, <i>Annual Performance Criteria for Refund of System Contribution</i></p>
November 26, 2015	<p><b>Part 300 System Reliability and Operations</b> Section Amended: Section 302.1, <i>Real Time Transmission Constraint Management</i></p>
July 31, 2015	<p><b>Part 500 Facilities</b> Section Added: Section 501.3 <i>Abbreviated Needs Approval Process</i></p> <p><b>Consolidated Authoritative Document Glossary</b> Definition Removed: abbreviated needs identification approval process</p>
April 1, 2015	<p><b>Part 300 System Reliability and Operations</b> Section Amended Section 304.3 <i>Wind Power Ramp Up Management</i> Section 306.5 <i>Generation Outage Reporting and Coordination</i></p> <p><b>Part 500 Facilities</b> Section Amended: Section 502.1 <i>Wind Aggregated Generating Facilities Technical Requirements</i></p> <p><b>Consolidated Authoritative Document Glossary</b> Definition Amended: allowable dispatch variance</p>
March 27, 2015	<p><b>Part 200 Markets</b> Section Amended: Section 205.5 <i>Spinning Reserve Technical Requirements and Performance Standards</i></p> <p><b>Part 500 Facilities</b> Section Amended: Section 502.1 <i>Wind Aggregated Generating Facilities Technical Requirements</i> Section 502.3 <i>Interconnected Electric System Protection Requirements</i> Section 502.4 <i>Automated Dispatch and Messaging System and Voice Communication System Requirements</i> Section 502.8 <i>SCADA Technical and Operating Requirements</i> Section 502.9 <i>Synchrophasor Measurement Unit Technical Requirements</i></p>
December 23, 2014	<p><b>Part 200 Markets</b> Section Amended:</p>

	<p>Section 203.4 <i>Delivery Requirements for Energy</i></p> <p>Sections Added:  Section 205.1 <i>Offers for Operating Reserve</i>  Section 205.2 <i>Issuing Dispatches and Directives for Operating Reserve</i>  Section 205.3 <i>Restatements for Operating Reserve</i>  Section 205.4 <i>Regulating Reserve Technical Requirements and Performance Standards</i>  Section 205.5 <i>Spinning Reserve Technical Requirements and Performance Standards</i>  Section 205.6 <i>Supplemental Reserve Technical Requirements and Performance Standards</i></p> <p><b>Part Two – Market Participation Rules</b></p> <p>Sections Removed:  Section 3.6, <i>Ancillary Service Declarations</i>  Section 6.4, <i>Ancillary Service Dispatch</i>  Section 6.5, <i>Ancillary Service Directive</i></p> <p><b>Part Three – Operating Policies and Procedures</b></p> <p>OPPs Removed:  OPP 401 <i>Regulating Reserve Service</i>  OPP 402 <i>Supplemental and Spinning Reserve Services</i>  OPP 403 <i>External Spinning and Supplemental Reserves from BC</i>  OPP 404 <i>Ancillary Services Dispatches and Directives</i></p> <p><b>Part 500 Facilities</b></p> <p>Section Amended:  Section 502.8 <i>SCADA Technical and Operating Requirements</i></p> <p><b>Consolidated Authoritative Document Glossary</b></p> <p>Definitions Added:  super-peak</p> <p>Definitions Amended:  contingency  contingency reserve  forecast scheduling period  governor or governor system  on peak  operating reserve  regulating reserve  spinning reserve  supplemental reserve</p> <p>Definitions Removed:  AGC unit  area control error (ACE)  asset  contingency reserve obligation  dispatch time  disturbance control standard (DCS)  external spinning reserves  firm load responsibility</p>

June 1, 2011	<p><b>Part 500 Facilities</b>  Section Added:  Section 502.4 <i>Automated dispatch and Messaging System and Voice Communication system Requirements</i>. This new section replaces ISO OPP 003.3 “<i>Operational Voice Communications for the AIES</i>” and ISO OPP 1203 “<i>Emergency Voice Communication Testing</i>” in their entirety from the existing ISO rules framework.</p>
May 5, 2011	<p><b>Part Two – Market Participation Rule</b>  New Subsections to Section 9.4:  Subsection 9.4.1 <i>Real Time Transmission Constraint Mitigation</i>  Subsection 9.4.2 <i>Additional Real Time Constraint Management Procedures</i>  New ISO rules Section 9.4 prescribe how the AESO must operate and manage the transmission system during real time transmission constraints. Furthermore, the Rules are also intended to guide the development of the system controller procedures to be used to manage constraints that have been identified, through planning studies, likely to arise in real time.</p> <p><b>Consolidated Authoritative Document Glossary</b>  Definitions Added:  downstream constraint side  constraint effective factor  upstream constraint side</p>
April 14, 2011	<p><b>Part Three – Operating Policies and Procedures</b>  OPP Removed:  OPP 305 <i>McNeill Converter Switching Modes</i></p>
April 1, 2011	<p><b>Part 300 System Reliability and Operations</b>  Section Added:  Section 303.1 <i>Import Load Remedial Action Scheme Service and Load Shed Service</i>. This new section replaces OPP 312 <i>Import Load Remedial Action Scheme (ILRAS) and Load Shed Service (LSS)</i> in its entirety from the ISO rules framework.</p>
September 16, 2010	<p><b>Part 200 Markets</b>  Section Added:  Section 201.1 <i>Pool Participant Registration</i>. Replaces subsections 1.1 through 1.7 and 1.9 of ISO Rules Section 1 <i>Pool Participants</i>.</p>
April 30, 2010	<p><b>Part 100 General</b>  Section Added:  Section 103.1 <i>Confidentiality</i>. Replaces Section 10.9 of the existing ISO rules.</p>
January 12, 2010	<p><b>Part 100 General</b>  Section Added:  Section 103.2 <i>Dispute Resolution</i>. Replaces Section 11 of the existing ISO rules framework in its entirety.</p>

December 15, 2009	<p><b>Part 100 General</b>  Section Added:  Division – 101 <i>Interpretation</i>. Replaces Section 3 of the existing ISO rules framework in its entirety.</p>
December 7, 2010	<p><b>Consolidated Authoritative Document Glossary</b>  Definitions Amended:  Act  affiliate  ancillary services  Commission  commercial operation  contract capacity  direct loss or damage  generating unit  ISO  interconnected electric system  ISO rules  pool price  power purchase arrangement  system access service  western interconnection</p>
December 1, 2010	<p><b>Consolidated Authoritative Document Glossary</b>  Definitions Amended:  balancing authority area  business day  billing capacity  good electric operating practice</p> <p>Definitions Removed:  asset addition form  BRP  ISO asset list  pool participant agreement  pool participant list  regulated rate provider (RRP)  retailer  self retailer</p>
November 25, 2010	<p><b>Consolidated Authoritative Document Glossary</b>  Definition Removed:  Electric Utilities Act Definitions – removed as the language within the rule is unnecessary as the AESO updates and includes the new defined term or change to an existing defined term in its Consolidated Authoritative Documents Glossary published on the AESO website.</p>
October 28, 2010	<p><b>Consolidated Authoritative Document Glossary</b>  Definitions Added:  incremental generation costs  scheduled generator outage</p> <p><b>Part Two – Market Participation Rules</b></p> <p>Subsections Removed from Section 5:  Subsection 5.1 <i>Adequacy Assessment</i>  Subsection 5.2 <i>Forecast Dispatch Price</i></p>

	<p>Subsections 5.1 and 5.2 removed in their entirety and substituted with new subsections 5.1 to 5.6.2 to satisfy:</p> <p>a) requirement in Section 18 of the Transmission Regulation to create a rule regarding generator outage cancellation; and</p> <p>b) Comply with directions from the Commission to address issues as set out in AUC Decision 2008-137.</p> <p>New Subsections to Section 5:</p> <p>Subsection 5.1 <i>Reliability and Adequacy Assessments</i></p> <p>Subsection 5.2 <i>Generating Unit Scheduled Generator Outage Reporting</i></p> <p>Subsection 5.2.1 <i>Timely Information From Owner to Pool Participant</i></p> <p>Subsection 5.2.2 <i>Specific Scheduled Generator Outage and Forced Outage Reporting Requirements</i></p> <p>Subsection 5.2.3 <i>Generating Unit Outage Information Confidentiality</i></p> <p>Subsection 5.2.4 <i>Aggregate Information Posting</i></p> <p>Subsection 5.3 <i>Authority to Issue a Scheduled Generator Outage Cancellation Directive</i></p> <p>Subsection 5.3.1 <i>Scheduled Generator Outage Cancellation Procedure</i></p> <p>Subsection 5.3.2 <i>Scheduled Generator Outage Planned Costs and Work Submission</i></p> <p>Subsection 5.3.3 <i>Time Constrained Scheduled Generator Outage Cancellation</i></p> <p>Subsection 5.3.4 <i>Scheduled Generator Outage Cancellation Report</i></p> <p>Subsection 5.4 <i>Payment Eligibility for Incremental Generation Costs, and Claim Limitations</i></p> <p>Subsection 5.5 <i>Payment and Cost Recover</i></p> <p>Subsection 5.6 <i>Forecast Dispatch Price</i></p> <p>Subsection 5.6.1 <i>Determination of Forecast Dispatch Price</i></p> <p>Subsection 5.6.2 <i>Determination of Forecast Asset Marginal Price</i></p> <p>Subsections Amended in Section 6.3.5:</p> <p>Subsection 6.3.5.2 <i>Requirements and Directives (f) and (g)</i></p> <p>New Subsection to Section 6.3.5:</p> <p>Subsection 6.3.5.3 <i>Payment for Incremental Generation Costs</i></p> <p>Subsection 6.3.5.4 <i>Financial Settlement</i></p> <p>Subsection 6.3.5.5 <i>Reporting</i></p> <p>Subsections Amended in Section 8.1:</p> <p>Subsection 8.1.1 <i>Settlement at Pool Price</i></p> <p>Changes to Section 6.3.5 “Long lead time Energy” and Section 8.1.1 “Settlement at Pool Price” required to accommodate the removal of ISO rule Appendix 7.</p> <p><b>Part Three – Operating Policies and Procedures</b></p> <p>OPP Removed:</p> <p>OPP 606 <i>Generator Outage Coordination</i></p> <p><b>Part Four – Appendices</b></p> <p>Appendices Removed:</p> <p>Appendix 7 <i>Payment for Incremental Generation Cost for Long Lead time Energy Directive and Reporting</i> removed as content is now address in the body of Section 5 <i>Provisions</i>.</p>
--	--

<p>September 16, 2010</p>	<p><b>Part Two – Market Participation Rules</b>  Subsections Removed from Section 1:  Subsection 1.1 <i>Requirements of Becoming / Application to Become a Pool Participant</i>  Subsection 1.2 <i>Pool Participant Amendment Requirements</i>  Subsection 1.3 <i>Pool Participant List and ISO Asset List</i>  Subsection 1.4 <i>Failure of Pool Participants to Meet Participation Requirements</i>  Subsection 1.5 <i>Termination of Participation by a Pool Participant</i>  Subsection 1.6 <i>Effect of Termination</i>  Subsection 1.7 <i>Reinstatement of Participation</i>  Subsection 1.9 <i>Renewal Provisions</i></p> <p>Subsections 1.1 through 1.7 and 1.9 of Section 1 removed in their entirety as part of the TOAD project.</p> <p><b>Part Four – Appendices</b>  Appendices Removed:  Appendix 1 <i>Pool Participant Application Registration Form</i> will be relocated to the Information Document <i>Becoming a Pool Participant</i>  Appendix 2 <i>Pool Participant Agreement</i> will be removed in its entirety.</p>
<p>September 7, 2010</p>	<p><b>Part One – General</b>  Definitions Added:  aggregated generating facilities  collector bus  maximum authorized real power  operator  legal owner  person  point of connection  transmission system  voltage regulating system  wind turbine generator</p> <p>Definition Amended:  gross real power</p>
<p>July 23, 2010</p>	<p><b>Part One – General</b>  Definitions Amended:  apparent power  metered demand  metered energy  power factor  reactive power  real power</p>
<p>June 3, 2010</p>	<p><b>Part Three – Operating Policies &amp; Procedures</b>  OPP Amended:  OPP 517 <i>Kepphills/Ellerslie/Genesee (KEG) Area Operation</i></p>
<p>April 30, 2010</p>	<p><b>Part One – General</b>  Section Removed:  <i>Limitation of Liability</i> removed as the legislative provisions regarding limitation of liability are sufficient and that the ISO rules do not need to duplicate or elaborate on such provisions</p>

	<p>Definitions Removed:</p> <ul style="list-style-type: none"> <li>DOS request</li> <li>opportunity capacity</li> <li>aggregation</li> <li>capacity benefit margin</li> <li>Customer's facilities</li> <li>data model</li> <li>dispatch log</li> <li>distributor</li> <li>E&amp;GI Act</li> <li>eligible dispute</li> <li>energization certificate</li> <li>forward contract</li> <li>incremental loss factor</li> <li>ISO FDRM</li> <li>ISO load forecast</li> <li>marketer</li> <li>measurement data</li> <li>measurement point definition record</li> <li>mediation oversight committee</li> <li>mediator</li> <li>meter data manager</li> <li>metering system</li> <li>non-dispensated metering equipment</li> <li>notice of eligible dispute</li> <li>PPA effective date</li> <li>shift factor</li> <li>STS Capacity</li> <li>STS contracting party</li> </ul> <p>Definitions Amended:</p> <ul style="list-style-type: none"> <li>commissioning</li> <li>electric distribution system</li> <li>interchange transaction</li> <li>ISO tariff</li> <li>Market Surveillance Administrator</li> <li>material adverse change</li> <li>metering equipment</li> <li>outage</li> <li>point of delivery</li> <li>point of interconnection</li> <li>point of supply</li> <li>settlement period</li> <li>transmission facility</li> </ul> <p><b>Part Two – Market Participation Rules</b></p> <p>Sections Removed:</p> <ul style="list-style-type: none"> <li>Section 10.1 <i>Information Disclosure principles</i></li> <li>Section 10.2 <i>Forecast Scheduling Period Data, Six Day Forecast</i></li> <li>Section 10.3 <i>Day Ahead, Trading Day Forecast</i></li> <li>Section 10.4 <i>Next Two Settlement Intervals Forecast</i></li> <li>Section 10.5 <i>Settlement Interval Following</i></li> <li>Section 10.6 <i>Trading Day History</i></li> <li>Section 10.7 <i>ISO Records and Reports</i></li> <li>Section 10.8 <i>Ancillary Services Information Provisions</i></li> </ul>
--	---

	<p>Section 10.9 <i>Confidentiality</i>  Sections 10.1 to 10.9 removed as part of the TOAD project with Section 10.9 replaced in its entirety and relocated in Section 103.1 <i>Confidentiality</i>.</p> <p><b>Part Three – Operating Policies &amp; Procedures</b>  OPPs Removed:  OPP 507 <i>Demand Opportunity Service (DOS) Request</i>  OPP 901 <i>Demand Opportunity Service (DOS) Curtailments</i>  OPP 808 <i>Sabotage Reporting</i></p> <p><b>Part Four – Appendices</b>  Appendix Removed:  Appendix 5 <i>Information To Be Provided Through the ISO</i> was removed as the AESO has deemed Appendix 5 of the ISO rules to be an extension of ISO rule 10 Information Exchange. Appendix 5 is also not cross-referenced as a requirement in any other ISO rules.</p> <p><b>Part Five – Schedules</b>  Schedule Amended:  <i>AESO Trading Charge</i> Modified in accordance with the AESO Board’s Decision 2010 and 2011-BRP-001 in which the AESO’s own costs, ancillary services costs and transmission line costs were approved.</p>
<p>March 3, 2010</p>	<p><b>Part Two – Market Participation Rules</b>  Sections Amended:  MPR 8.1.1 <i>Settlement at Pool Price</i> amended to align with the LLTD Rule  MPR 8.4.2 <i>Final Pool Statement</i> amended to align with the LLTD Rule</p> <p><b>Part Three – Operating Policies &amp; Procedures</b>  OPPs Amended:  OPP 101 <i>Dispatching the Energy Market Merit Order</i>  OPP 705 <i>Short Term Adequacy Assessments</i>  OPP 801 <i>Supply Shortfall</i></p>
<p>February 17, 2010</p>	<p><b>Part Three – Operating Policies &amp; Procedures</b>  OPP Amended:  OPP 702 <i>Voltage Control</i></p>
<p>February 1, 2010</p>	<p><b>Part One – General</b>  Definitions Added:  long lead time energy  long lead time energy directive  long lead time generating asset</p> <p><b>Part Two – Market Participation Rules</b>  Sections Added (replacing existing 6.3.5):  MPR 6.3.5.1 <i>Authority to Issue a Long Lead Time Energy Directive</i>. Added to implement amendments consistent with the Transmission Regulation (AR 86/2007) by addressing specific requirements for pool participants regarding long lead time energy.  MPR 6.3.5.2 <i>Requirements and Directives</i>. Added to implement amendments consistent with the Transmission Regulation (AR 86/2007) by addressing specific requirements for pool participants</p>

	<p>regarding long lead time energy.</p> <p>Sections Amended:            Section 6.3.6.2 <i>Conditions for Dispatch Down Service Dispatch</i> amended to address specific requirements regarding the provisions of Dispatch Down Service by pool participants.            Section 6.3.6.3 <i>Determining Dispatch Down Service Dispatch Quantity</i> amended to address specific requirements regarding the provisions of Dispatch Down Service by pool participants.</p> <p><b>Part Four – Appendices</b>            Appendix Renumbered:            Appendix 8 <i>Summary of ISO Rule Changes</i></p> <p>Appendices Added:            Appendix 7 <i>Payment for Incremental Generation Costs for Long Lead Time Energy Directive and Reporting</i>. Provides a definition of “incremental generation costs” and sets out payment for same. Also sets out reporting requirements in the event of a long lead time energy directive.</p>
January 27, 2010	<p><b>Part Three – Operating Policies &amp; Procedures</b>            OPPs Amended:            OPP 303 <i>Alberta-BC Interconnection Operation</i>            OPP 304 <i>Alberta-BC Interconnection Transfer Limits</i>            OPP 307 <i>Alberta-Saskatchewan Interconnection Transfer Limits</i>            OPP 503 <i>Empress Area Operation</i></p>
January 18, 2010	<p><b>Part Two – Market Participation Rules</b>            Section Added:            Section 10.10 <i>Load Outage Reporting</i> added to identify the load outage reporting requirements of a market participant in the event of a decrease in its ability to consume electricity.</p>
January 12, 2010	<p><b>Part Two – Market Participation Rules</b>            Section Removed:            Section 11 removed as this section has been replaced in its entirety and relocated in Section 103.2 <i>Dispute Resolution</i></p>
December 17, 2009	<p><b>Part Three – Operating Policies &amp; Procedures</b>            OPP Amended:            OPP 521 <i>Beddington Substation and Area Operation</i></p>
December 16, 2009	<p><b>Part One – General</b>            Definitions Amended:            Crown            ISO Fees            Market Participant            Market Surveillance Administrator / MSA            Needs Identification Document            Power Pool</p> <p>Definitions Removed:            asset minimum off time            asset minimum on time            available capacity factor            business hours</p>

	<p>capital contribution  compressed loss factor  confirmation notice  EPA approval  exception  forced supply reduction  generating year  gross MVAR  high net regulating limit  incapability Factor  intermediary balancing authority area  low net regulating limit  measurement point data  metered quantity  normalized annual loss factor  power system monitor  raw loss factor  reliability compliance committee  shortage of energy supply event  supplemental governor response  system average loss factor  system demand ramp  system interval meters  system level  transmission system average loss factor  WECC emergency assistance</p> <p><b>Part Two – Market Participation Rules</b>  Sections Amended:  MPR – Rule 3 <i>Offer, Bids, Ancillary Services and Asset Declarations</i>. Amended due to the transfer of a section of what was previously section G7 Operation of the ISO (“G7”) into a new subsection 3.11 <i>Software Procedures</i>. The new subject matter are the procedures and notice associated with the software used to support bid, offer, ancillary services declaration, operating constraints or net settlement. It was determined under Transition of Authoritative Documents (“TOAD”) project reforms that ISO Rule 3 was a more logical place for the provision.</p> <p>MPR – Rule 9.5. Amended to remove “generating year” and replace the definition with “calendar year”.</p> <p>MPR – Rule 9.5.2. Amended to include Contracted Ancillary Service energy in the calculation of the average capacity factor.</p> <p>MPR – Rule 9.5.4. Amended to revise the information in paragraph a)iii) as the information in this section is no longer relevant, thus the AESO proposes to revise this information requirement to request that the generator provide confirmation that it has maintained commercial operation throughout the calendar year.</p>
December 15, 2009	<p><b>Preface to ISO Rule</b>  Removed. Content does not need to be contained within an ISO Rule. The content is informational in nature or is already addressed in legislation.</p>

	<p><b>Part One – General</b>  Sections Removed:  G3. Removed as this section has been replaced in its entirety and relocated in Division 101 <i>Interpretation</i>.  G4. Removed as content does not need to be contained within an ISO Rule. The content is informational in nature or is already addressed in legislation.  G5. Removed as it is unnecessary to have an ISO rule which restates legislation.  G7. Removed as legislation states that the AESO, being a market participant must comply with ISO rules. The AESO will be further proposing to transition the reference to the procedures and notice associated with the software used to support bid, offer, ancillary services declaration, operating constraints or net settlement instructions to ISO rule 3 <i>Offer, Bids, Ancillary Services and Asset Declarations</i>.</p> <p><b>Part Three – Operating Policies &amp; Procedures</b>  OPP Removed:  OPP 001 <i>Application and Interpretation</i></p> <p>OPP Amended:  OPP 515 <i>South Area Operation</i></p>
October 1, 2009	<p><b>Part One – General</b>  Definition Amended:  Agent</p>
September 17, 2009	<p><b>Part Two – Market Participation Rules</b>  Section Amended:  MPR 1.8. Amended to implement the new provisions of the Fair, Efficient and Open Competition Regulation (“FEOC Regulation”).</p> <p>Section Removed:  MPR 1.10. Removed as the ISO rule does not support the FEOC Regulation implemented on September 1, 2009.</p> <p><b>Part Three – Operating Policies &amp; Procedures</b>  OPPs Amended:  OPP 501 <i>Northwest Area Operation</i> (Effective Date – September 15, 2009)  OPP 505 <i>Fort McMurray Area Operation</i> (Effective Date – September 15, 2009)</p>
September 4, 2009	<p><b>Part Three – Operating Policies &amp; Procedures</b>  OPP Amended:  OPP 515 <i>South Area Operation</i></p>
September 1, 2009	<p><b>Part One – General</b>  Definitions Added:  10 Minute Clock Period  Allowable Dispatch Variance  Operational Deviation  Ramping  Generating Asset Steady State  Definitions modified:</p>

	<p>Direction</p> <p><b>Part Two – Market Participation Rules</b>  Section Amended:  MPR 6.6. Amended to implement procedural and tolerance amendments with respect to pool participant energy market dispatch compliance obligations and an allowable dispatch variance for pool participants supplying energy to the energy market. Section 6.6 amendments address matters such as energy market dispatch compliance responsibilities of a Pool Participant, steady state compliance, ramping compliance, allowance for operational deviations from dispatch level, preparation for provision of Operating Reserves, allowance for governor action due to frequency excursions and operation below minimum stable generation.</p> <p><b>Part Three – Operating Policies &amp; Procedures</b>  OPP Added:  OPP 525 <i>Crossfield Area Operation</i></p> <p>OPPs Amended:  OPP 312 <i>Import Load Remedial Action Scheme (ILRAS) and Load Shed Service (LSS)</i>  OPP 503 <i>Empress Area Operation</i>  OPP 601 <i>Transmission Outage Coordination</i>  OPP 704 <i>Remedial Action Schemes</i>  OPP 802 <i>Energy Emergency Alerts and Firm Load Directives</i>  OPP 803 <i>SaskPower Emergency Assistance Energy</i>  OPP 807 <i>BCTC Emergency Assistance Energy</i>  OPP 1306 <i>Reporting Equipment Changes</i></p>
